The place for strategy execution

i-nexus strategy software is the place for everything related to your strategic and operational goals.

That means you can integrate the technology that matters into i-nexus, cutting admin down to size.

Jira	salesforce	clarizen
Trello	Microsoft Teams	Dynamics 365
aws	Outlook	Office 365
mevisio	Microsoft Azure	G Suite
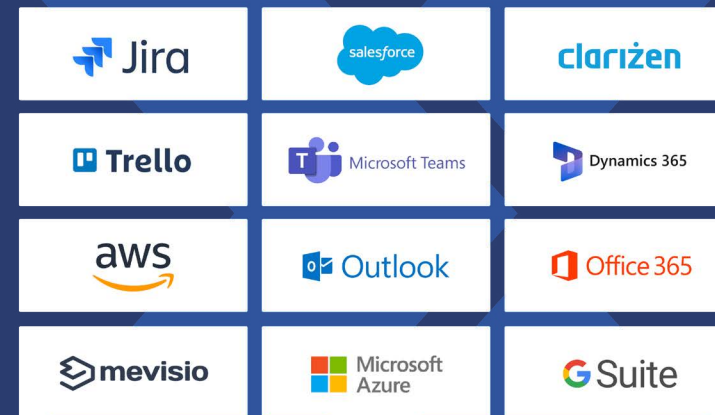

Strategy as a service

i-nexus is a subscription-based software-as-a-service (SaaS) hosted on i-nexus' secure private cloud.

As a hosted SaaS application, there is no software for you to install and maintain, saving you costly upfront infrastructure costs and scarce IT time.

And with pay-as-you-go term licensing, your software costs are predictable and transparent, avoiding the expense of a large upfront license. All helping you to minimise your cost of ownership while delivering maximum return.

Plus, you automatically receive regular upgrades as we deliver updates and new features.
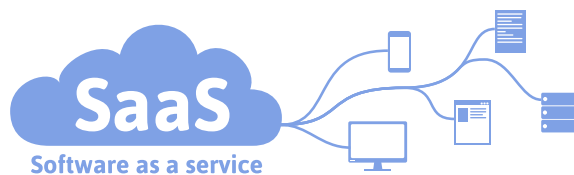

Secure private hosting

Your data is valuable and sensitive. Yet you want the ease-of-access and ease-of-ownership that only the cloud provides.

i-nexus' secure private cloud offers the best of both worlds, using dedicated servers to securely and reliably deliver our services to customers.

Extra peace of mind comes from knowing that each customer has its own database.

i-nexus cloud operations centres are hosted on Amazon Web Services and located in the UK and the USA, with i-nexus holding ISO 27001 accreditation for information security with SGS.

i-nexus
Strategy Software

Matching your needs

i-nexus strategy software gives you all you need to achieve more of your goals.

Large companies share many characteristics: multi-national operations, multiple business units, hundreds of cross-functional teams, and thousands of employees to name but a few. And with complexity and size comes IT requirements and the need for strategy software that offers the flexibility and configuration choice needed to wrestle complexity into submission.

i-nexus, is the only strategy software that's ready for the enterprise.

Devices

i-nexus goes where you go, so whether you want to update metrics, build your projects, or work on the x-matrix, i-nexus is there with you

Secure

From our ISO 27001 accreditation for information security to industry-standard data encryption, authentication and permission-based authorisation, i-nexus provides the assurance you need that your data is securely managed.

Scalable

i-nexus effortlessly scales with your deployment, providing proven scalability that meet the needs of the world's largest companies. Our customers routinely have thousands of users with tens of thousands of initiatives under i-nexus management.

Reliable

Meeting industry-accepted availability standards with automated backups and disaster recovery capabilities, i-nexus delivers the reliability you demand from your enterprise software partners.

Global

i-nexus has full multi-language, multi-currency and multi-time zone support so you can confidently collaborate across your international operations.

Open

i-nexus seamlessly integrates with your existing enterprise architecture. Use our web services Integration Module to bring data into i-nexus or synchronise data between i-nexus and other systems like financial and ERP solutions such as SAP®.

Flexible

One size does not fit all and the i-nexus platform has designed-in flexibility to accommodate the unique needs of each of our customers.

The features to deliver your goals

i-nexus contains all the features needed to deliver more of your goals, with less effort

Collaborate

i-nexus keeps everything connected across the organization, with goals, projects, action plans, metrics and more in one place, ready for your teams to collaborate

Customize

i-nexus is shaped to you, from your templates and approval workflows, to customizable fields and integrating with your tech, i-nexus wraps around your ways of working

Permissions

i-nexus roles mean you can present the right information to the right users and teams, while offering permissions to manage access and actions
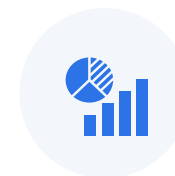

Workflows

Facilitate and track your teams' work by automating standard processes, from initiative lifecycles to routine reviews and approvals

Notifications

i-nexus users receive alerts and notifications to prompt updates on metrics, journals, and KPIs

Reporting

i-nexus generates colorful and meaningful visualizations of your goals, projects, and performance, viewable inside i-nexus, a PDF, or your visualization tools

The i-nexus difference

We wrap around you

i-nexus wraps around how you want to deliver your goals. Languages, locations, products, processes. Exactly how you want it. All inside one solution.

We support

We use two decades of experience in strategy execution, Hoshin Kanri, Lean, and project management to help you overcome challenges, spot gaps, and accelerate success.

We integrate

i-nexus is your single source of truth, connecting project management software, ERP, CRM, and other critical systems to give you a total view of what matters to deliver results.

Trusted by global organizations

"We've had a great relationship with i-nexus from the start. They partnered with us at every step of our journey and have helped us to tune our system in lockstep with our organization and strategy deployment process evolution.

Mahesh Shankar, Director, Strategy, Wabtec Corporation
